

# WEATHER LOG

TODAY'S DATE: \_\_\_\_\_

Weather scientists, called **meteorologists**, track daily conditions to learn more about weather. Observe the weather today and mark this sheet: What is the **temperature?** (Hot or cold?) Is there any **precipitation** (falling water, like rain or snow)? Is it **cloudy?** **Windy?** What is the **humidity?** Any **extreme weather?** Make observations throughout the year. Does knowing the season help you guess what the weather is likely to be?
